Automated Hold, Manual Release Print Jobs

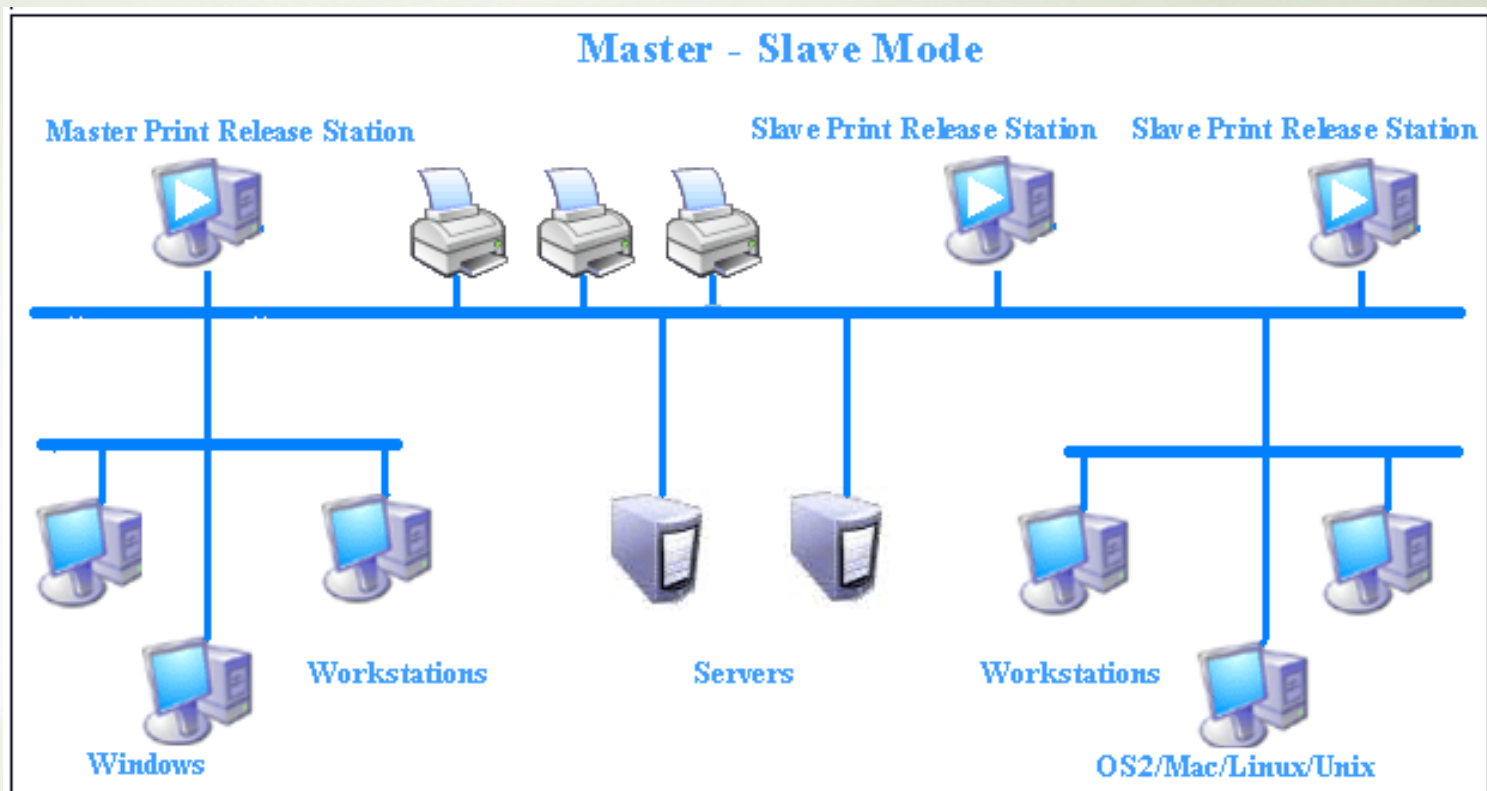

Print jobs are kept on hold until released manually by student, patron staff or employee. The simple interface provided by the software supports staff operation, unattended services operation in various modes:

- Staff Mode - By Users;
- Staff Mode - By Workstations;
- User Mode - By Users;
- User Mode - By Workstations;
- User Mode with Login.

All the modes for users and workstations have common fields displaying user name, computer name, print job description, pages, cost, submitted, printer, color and paper size. User Mode with Login is provides more secure print environment with user ID login.

Print Anywhere

CZ Print Release Station allows students or patrons to release their print jobs from any print station, may be master or slave print station.

Payment Options

CZ Print Release Station provides best, cost effective payment solution. It supports the prepaid account payment. The self-support payment collection by coins, cards, bill self-service systems are most suitable. The staff can also collect the payment manually and release the print jobs for patrons / students without using self payment equipments.

Print Preview

CZ Print Release Station allows to preview print content before releasing job for printing. In case the user is not satisfied with page layout, page size, content fit, he/she can cancel the print job.

Print Accounting

CZ Print Release Station allows the administrator set pre-defined charges for print jobs to improve management print resources. Charges can be set for each printer and based on number of pages, monochrome/color, single/duplex, and paper size (includes 68 standard paper sizes and 40 definable paper sizes).

Monochrome base cost / page	<input type="text" value="0.10"/>	
For duplexed printing, the cost decrease	<input type="text" value="20"/>	% per page
For color printing, the cost increase	<input type="text" value="50"/>	% per page
<input type="button" value="Paper Size Charging"/>		

Print Quotas

CZ Print Release Station is used for printing quota software accounting. This feature allows to set values to stop printing if single print job exceeds admin defined maximum number of pages. This software also allows to define / set values for maximum print per day and set free printing for per day / per term / per person.

☒ Prevent printing if a single print job exceeds pages

☐ Allow to print a maximum of pages per day, per person

☐ Free printing for the first pages per day, per person

☐ Free printing for the first pages per term, per person

Preferences			
Printers Print Jobs Prepaid Accounts User Mode			
Prepaid Account List			
User	Balance	PIN	Status
mgary	10.00	0NN48I	Enabled
sjohn	25.00	yqEf86	Enabled

Automatically Cancels Unclaimed Print Jobs

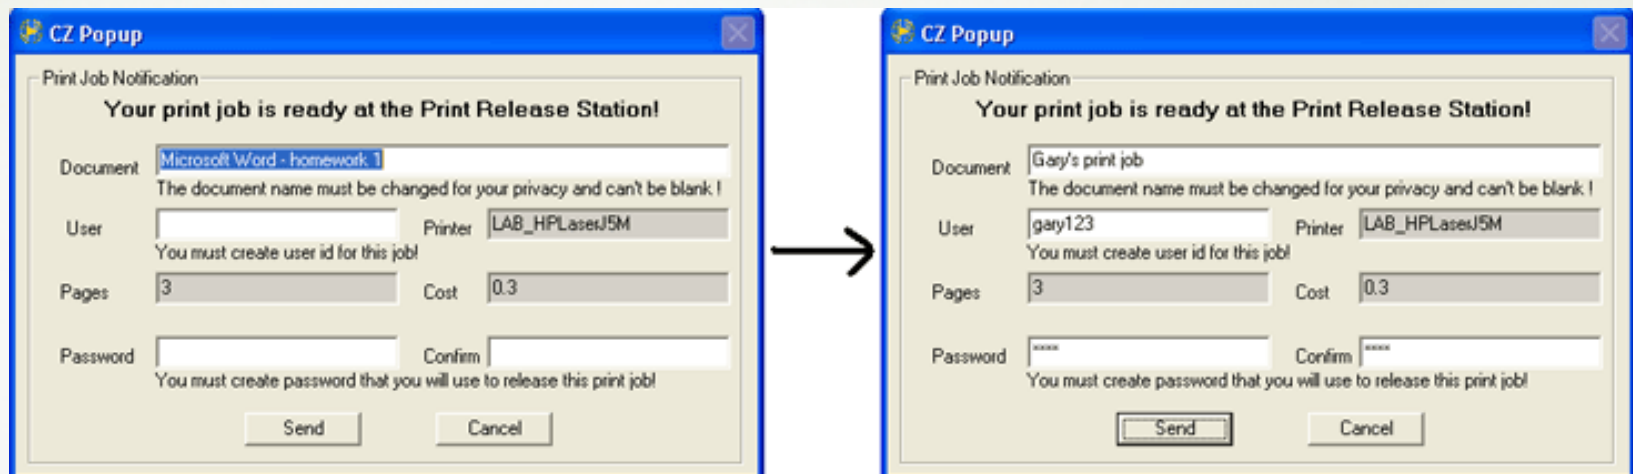

CZ Print Release Station can cancel all waiting and unclaimed print jobs automatically at admin defined time.

<input checked="" type="checkbox"/> Auto delete all waiting jobs at	<input type="text" value="2:00"/>	<input checked="" type="radio"/> AM <input type="radio"/> PM
<input type="checkbox"/> Auto delete the waiting job if it is held more than	<input type="text" value="12"/>	hours

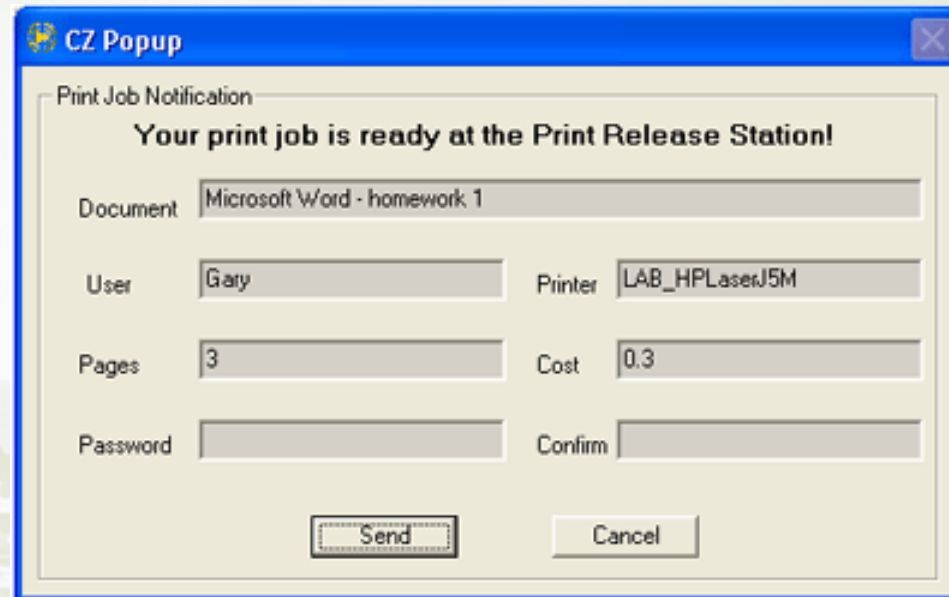

Password and privacy protection

When a print job is submitted, a dialog window can popup to allow the user to change the print job name on the user's workstation for privacy, and / or create a password that the user will use to release that print job on the print release station. It also allows the users to create a user id for their print jobs that they can use to show only their print jobs on the print release station. This feature can be used for the environment that students / patrons use their own laptops to print or the user id may be duplicated.

Popup Notification

The pop-up notification for print confirmation can be send to students or patrons for confirming their print job details on their Windows, Mac OSX / Classic, or Linux workstations. The students or patrons may cancel the print order on the popup notification window.

The screenshot shows a Windows-style popup window titled "CZ Popup" with a close button in the top right corner. The main heading inside the window is "Print Job Notification" followed by "Your print job is ready at the Print Release Station!". Below this, there are several input fields arranged in two columns. The first row contains "Document" with the value "Microsoft Word - homework 1". The second row contains "User" with the value "Gary" and "Printer" with the value "LAB_HPLaserJ5M". The third row contains "Pages" with the value "3" and "Cost" with the value "0.3". The fourth row contains "Password" and "Confirm", both with empty input fields. At the bottom of the window, there are two buttons: "Send" and "Cancel".
