Print Job Manager

TrackControl

Save

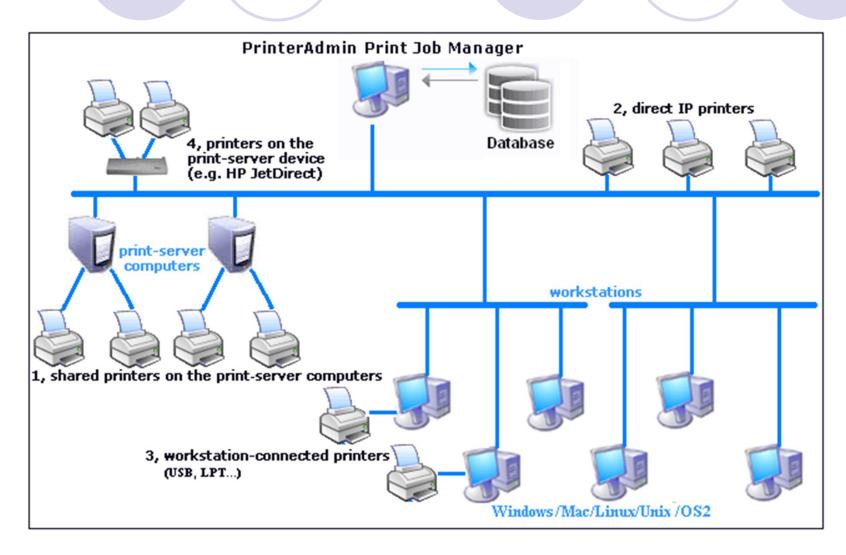

"Spend less time managing your printing costs and more time managing your profit"

Overview

Print Job Manager lets you monitor all printing activity, handle charge-backs, control who's printing and how much is being printed, and identify the costs of printing across your entire organization.

Track any brand and model of printer

Track any type of printing
Shared printer on Windows / Unix / Linux print server
IP printer (Users print to the IP address of printer)
Local USB printer

Captures the detail print job information including:

- Name of the user who sends the print job
- Workstation computer name
- Destination printer name
- Print document name
- Print request time and date
- Color
- Paper size
- Print job size
- Number of printed pages

Captures the detail print job information.
