## PRINT JOB MANAGER

● AUDIT ● CONTROL ● SAVE ●

PrinterAdmin Software  
[www.printeradmin.com](http://www.printeradmin.com)  
[sales@printeradmin.com](mailto:sales@printeradmin.com)

**Print Job Manager** lets you monitor all printing activity, handle charge-backs, control who's printing and how much is being printed, and identify the costs of printing across your entire organization.

## TRACK

**Print Job Manager** can be installed on a single computer (Windows 32-bit or 64-bit) and you will be able to track, count and manage printing of all other computers (Windows / Linux / Unix / Mac). It captures the detail print job information including user name, computer name, printer name, document name, date and time submitted, color, duplex, paper size, job size and number of pages.

## CONTROL

**Print Job Manager** can restrict printing if the job exceeds the maximum allowable print limit specified for a printer or user. Further restrictions can be set by user, computer, document title, color, job size and day / time.

It can count, quota, control and charge printing for the following types of printers:

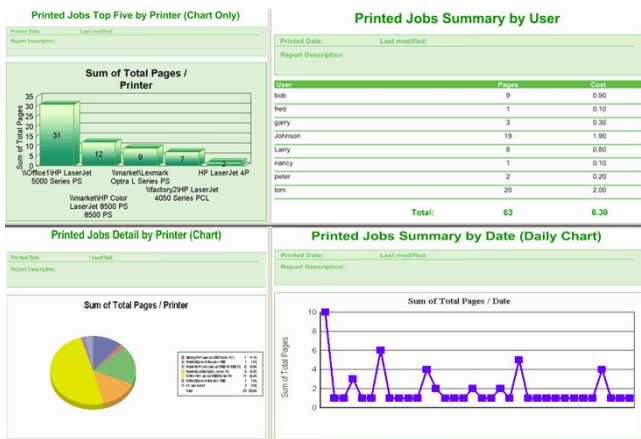

- ✓ The shared printers on the print servers,
- ✓ The printers connected to the workstations locally,
- ✓ The printers connected to the network directly via IP address without using print server (Users print to IP address of the printers).

## REPORT

**Print Job Manager** provides a reporting tool allowing you to generate 100 reports that can be exported to PDF, Word, Excel and rich text formats. The reports can be created in any language and sent by email automatically. Reports are designed for your print cost analysis and client billing.

## BACKUP

**Print Job Manager** can save and archive a copy of all printed documents as PDF format, easy to search, view and reprint.

## SAVE

**Print Job Manager** has proved fruitful for many businesses and educational facilities to manage and understand printing costs, and reduce wasted printing by 20% - 50%.

- ✓ Centralized print manager & counter and printer monitor.
- ✓ Supports both print server and direct IP printing environments.
- ✓ Supports all printer brands.
- ✓ Designed for Businesses and Education of all sizes.
- ✓ Monitor all your printers & print jobs from a single location & send alerts by email.
- ✓ Count, quota, log, audit, restrict and charge printing.
- ✓ Print authentication / client code billing in 25 languages.
- ✓ Email reports automatically or create web reports.
- ✓ View the content of waiting jobs / deleted jobs / printed jobs.
- ✓ Scan network and retrieve printer meter, toner / ink usage and serial number.
- ✓ Reprint printed jobs / deleted jobs.
- ✓ 100 reports designed for your print cost analysis and client billing.
- ✓ Generate reports automatically in any language within minutes.
- ✓ Save up to 20% - 50% in paper and toner costs.
